I disagree "they're getting to be terroristic and blocking right to assembly" because they are scared of the possibility of a million armed, angry protestors descending on the city. I say make their fears a reality!

I have learned that many people can't understand how others think. Only how they think. And they live life believing that everyone thinks like them. These twinks wouldn't fight to save their own mothers if they had to camp out side in order to pull it off. So they just assume we wouldn't ether. It's a sad miscalculation. Though the counter point it with out a locked door we would be more vulnerable to their late night Attacks. So maybe that's the plan. Make us camp then attack us in our sleep.

how others think.

To be fair, I have a difficult time figuring out HOW the leftist mobs think too. I understand WHAT they think, but HOW eludes me.

I'd argue that's the principal difference between us and them, they have no understanding of what or how, and we may not understand how, but by and large we understand what they think, we just can't fathom the level of retardation required to come to their conclusions.

They have no sense of history, philosophy, logic, or empathy. The problem with trying to learn how they think is that one must put ideas and actions into a coherent (albeit flawed) system. These people don't think that way; to them, whatever provides the most utility in the moment is correct. "Thinking" is a tool of the oppressors, only "feeling" matters. Leftism of any stripe is simply taking any systematic idea or undertaking and removing the focal point. Once all is relative and therefore permissible, any action can be justified ex post facto.

This, and also that leftists are dumb.

"Bro because DPRK"

"What?"

"Democrat People Republic Korea"

"What are you trying to say?"

"DemoPeepRepubKorea"

edit: Also my other favorite argument of Nazi Socialist apologists is "all marxists are socialists but not all socialists are marxists" followed by "Hitler wasn't a socialist, because he killed Marxists."

I agree with all that except the 'several dozens' - antifa and BLM are sending tens of thousands, to our million plus (I expect 2.5 million with at least 1 million of those armed and ready to stand and fight) - they will get thousands of themselves killed before they understand it's not worth the couple hundred bucks a day Soros is paying them. January 6th must be decisive in ending the paid marxist mobs reign of terror. They've proposed sending us to gulags, re education camps, forced vaccines, forced business closings, closing schools, and ending free elections permanently - this is not a time for warnings or half measures.

After that, we hit them where they live. By the time we're done putting these freaks down the dead will be numbered in the tens of thousands. All the begging and pleading won't spare them.

These smoothbrains are nothing but aggressive psychological disorder and neurosis. They possess no semblance of independent thought. They have absolutely no control over their own brains. Their minds are just pure neurotic compulsion.

The closest comparison is that they're like an automated machine glitched and gone haywire. Their synapses are like motors and servos being randomly triggered by a short circuit. There is no logic involved, just reflex.

This is what makes them so effortless to control and whip up into a psychotic frenzy. It takes nothing to trigger their next out of control fit.

A very astute observation! I am starting to wonder what the purpose of forced china flu vaccines is, since they've said even if you've gotten it, you still have to wear a mask, could still get china flu, and still have to keep your business closed. If it doesn't prevent china flu, what does it do?

Most of these people aren't terrorists, the worst thing that's ever happened to them was their dog died when they were 9. They're perpetual victims of their own actions, and they are creating their own hell for eternity. It's not our fault and we can't save them all from themselves.

You scare bullies by standing up to them. If Americans had fought back on 9/11 those hijackers would have crashed way before getting to downtown NY. If armed patriots had confronted those riots this past summer, they would have been put down nation wide. All it takes is a few thousand Kyle Rittenhouses to get rid of the pedophile problem.

This is a call for terroristic threats against a business that wants to accommodate us.

We need to demand that the relevant local police keep the peace. They know how to do that, if the mayor and city council allow them to do so. Place this problem squarely in the mayor's lap.

We're dangerously on the verge of another civil war slash rebellion. People are talking seriously about erecting gallows in front of the US Capitol for fuck's sakes. I even find myself hesitatingly supportive of it all.

And these idiots wanna piss these patriots off FURTHER by doing something as petty as try to get hotels to close by once again bullying any American business owners that survived the plandemic - so far?

They don't realize that ineffectively trying to stop this protest is just going to inflame it further, do they? This can't be stopped. It's already in motion. Angry people are coming to DC. And lefties wanna piss 'em off more?

It's a bold strategy, Cotton, let's see if it pays off for 'em.
